

WHAT'S THE DIFFERENCE BETWEEN WHOLE PLANT FULL-SPECTRUM & CBD ISOLATE?

Green Gorilla offers two effective styles of Hemp CBD Oil.

Both are great on their own, but they are even better taken together!

Green Gorilla, the only USDA Certified Organic Hemp Brand, has 2 styles of the purest, most potent CBD formulas. Only Green Gorilla features independent lab tests showing the highest CBD levels and no THC detected.

Whole Plant Full-Spectrum

The entourage effect highlights the synergy of broad spectrum plant constituents and accentuates the healing wisdom of nature.

Pure CBD Isolate

CBD is the active healing compound that makes hemp work. Offering the purest extract in hemp history, the 99.98% pure isolate is the most powerful healing element in nature.
