

RAW FORMULA

90% PLANT MATERIAL
10% PHYTOCANNABINOIDS

Our Raw Formula products are made using our raw oil, a full spectrum, whole plant CO₂ extraction from certified European agricultural hemp. It is made from the parts of the plant that grow above the ground (aerial plant parts), making it a true hemp superfood.

The majority of extracted cannabinoids in the raw oil is comprised of cannabidiolic acid, or CBDA. CBDA is an acidic cannabinoid, a naturally-occurring form of CBD that is produced directly in the plant and contains many beneficial properties distinct from CBD.

AVAILABLE IN:

- Balm
- Drops
- Softgels

FATTY ACIDS	CANNABINOIDS	TERPENES	PLANT STEROLS	CHLOROPHYLL	VITAMIN E
α-Linolenic Acid 18:3N-3	Cannabidiol	β-Caryophyllene*	Sitosterol	Chlorophyll	Vitamin E
Stearadonic Acid 18:4N-3	Cannabidivarin	α-Humulene*	Campesterol		
Linoleic Acid 18:2N-6	Cannabidiolic Acid	Limonene	Stigmasterol		
γ-Linolenic Acid 18:3N-6	Cannabigerol	Caryophyllene Oxide			
Palmitoleic Acid 16:1N-7	Cannabigerolic Acid	Eucalyptol			
Oleic Acid 18:1N-9	Cannabichromene	Linalool			
Nervonic Acid 24:1N-9	Cannabinol	Trans-Nerolidol			
Gadoleic Acid 20:1N-11	Δ ⁹ -Tetrahydrocannabinol**	Terpinolene			
Hexonic Acid 6:00	Tetrahydrocannabinolic Acid**	β-Myrcene			
Deconic Acid 10:00	Cannabidivarinic Acid	Isopulegol			
Dodecanoic Acid 12:00		α-Pinene			
Tetradecaic Acid 14:00					
Hexadecanoic Acid 16:00					
Octadecanoic Acid 18:00					
Icosanoic Acid 20:00					
Docosanoic Acid 22:00					
Tetracosanoic Acid 24:00					

* Most abundant terpenes
** Less than 0.2% THC in bulk oil and considerably less in the finished product
*** Contains all naturally-occurring forms of Vitamin E

TOTAL PLANT COMPLEX

85% PLANT MATERIAL
15% PHYTOCANNABINOIDS

To create our Total Plant Complex products, our proprietary raw oil undergoes a process called decarboxylation (a gentle heating process), in which CBDA is converted into CBD. Total Plant Complex is activated CBD and has distinct applications from Raw CBDA.

Our Total Plant Complex products remain a full spectrum hemp extract, rich in many other phytocannabinoids including CBG, CBN, CBC and others, plant sterols, terpenes, chlorophyll and naturally-occurring Vitamin E.

AVAILABLE IN:

- Sprays
- Capsules

FATTY ACIDS	CANNABINOIDS	TERPENES	PLANT STEROLS	CHLOROPHYLL	VITAMIN E

*** Contains all naturally-occurring forms of Vitamin E

GOLD FORMULA

75% PLANT MATERIAL
25% PHYTOCANNABINOIDS

Our Gold Formula oil is standardized - similar to other herbal extracts - where our Total Plant Complex is distilled in a solvent-free process, concentrating CBD, other cannabinoids, fatty acids, terpenes, and naturally-occurring Vitamin E.

The Gold Formula products are the fastest acting and most concentrated form of CBD oil that we offer. Our Gold Formula line is recommended for critical and high intensity support.
